

Wood Turtle Individual Form (2015)

Observer(s):		Site Name:		Segment #:	
		Site Code:			
Date:		Time:		Turtle Notch Code: <i>if captured and marked</i>	
				Turtle PIT #: <i>if applicable</i>	
Sex: <input type="checkbox"/> Male <input type="checkbox"/> Female <input type="checkbox"/> Juvenile <input type="checkbox"/> Unknown		# annuli on left ab.:			
<input type="checkbox"/> Bled <input type="checkbox"/> Tissue collected		% worn on left ab.:			
CL (mm):		Camera ID & Photo #s: <i>Take carapace and plastron shots of each individual turtle upon its first capture.</i>			
CW (mm):		GPS ID and Point Number:			
PL (mm):		Coordinates (Latitude/Longitude): <i>Please set your GPS unit to DD.DDD (decimal degrees)</i>			
PW (mm):					
Shell height					
Mass (g):		<input type="checkbox"/> Initial capture <input type="checkbox"/> Marked before 2015 <input type="checkbox"/> 2015 Recap <input type="checkbox"/> Captured during a timed survey <input type="checkbox"/> "Off clock"			
Notch codes: Clearly note notches and injuries on the carapace diagram below.		<input type="checkbox"/> In the river <input type="checkbox"/> On bank (<2m to river) <input type="checkbox"/> Floodplain Dist. river:			
		Detection method: <input type="checkbox"/> Visual encounter survey (foot) <input type="checkbox"/> Boat survey <input type="checkbox"/> Snorkel survey <input type="checkbox"/> Nesting survey			
		Comments: <i>Note any signs of injury, respiratory distress, lesions, or lethargy. Note all strongly identifying features.</i>
